

Save the Date – 2016 GFOI Plenary and Open Forum

Week of 22nd February 2016

Location: ESA ESRIN, Frascati, Italy

ESA invites meetings of each of the GFOI Components, individually and in plenary, to be held at ESA ESRIN, Frascati, Italy in the week of 22nd February 2016.

The GFOI aims to assist countries with the development of national forest monitoring systems through the application of satellite data using methods and guidance consistent with IPCC guidelines.

This GFOI Open Forum will bring together a large group of stakeholders (institutions, individuals and countries) to advise on and contribute to the GFOI objectives.

In addition to Plenary & Open Forum sessions, the meetings anticipated to be held during the week are:

- GFOI Leads Team
- Space Data Coordination Group (SDCG-9)
- Methods and Guidance Document Group (Advisory and Training Material Development)
- Capacity Building (SilvaCarbon, FAO & countries)

Registration, agenda, and logistics details will be circulated in due course, and we look forward to your participation. Meantime – please SAVE THE DATE.
