

# Approach to COP-16

---

**Lessons learned and ideas for 2010**

# Side events and side meetings

---

- UNFCCC and SBSTA expect presentations from CEOS, mainly in SBSTA side meetings
- Better coordination amongst organizations working on climate issues to avoid unnecessary competition
- CEOS agencies to provide ground support in Mexico
- Review of the CEOS statement to COP-15
- Preparation of a shorter statement to be used in case an opportunity to speak arises

# Exhibition booth experience

---

- Ground support in Mexico
  - Need to identify people to staff the booth
- Rethink printed material: less words and more pictures
- Posters seem to be more effective than brochures
- Distribution of electronic version of the CEOS EO Handbook

# Actions

---

- Current CEOS Chair (INPE), Incoming CEOS Chair (CDTI) and SIT Chair (JAXA) to remain at the head of coordination for CEOS activities at COP-16
- COP-16 strategy group should be created to work the CEOS preparations in support to CEOS/SIT Chairs
