

**CEOS Ad Hoc Working Group on GEOGLAM
SIT-29 Side Meeting**

When: 14:15– 15:15 CET, Tuesday, April 8, 2014 (GoToMeeting details to be added)

Where: Poincaré building – Room 20, CNES, Toulouse, France

Objective: Following a brief update on the status of the *CEOS Acquisition Strategy for GEOGLAM Phase 1*, and outcomes from the recent GEOGLAM-CEOS Co-Community meeting in Rome (27th-28th February), the objective of the consultative meeting is to get feedback answer questions and discussed the proposed way forward to CEOS Plenary.

Description: Since the 27th CEOS Plenary, and in response to action 27-17 (see below), the *CEOS ad hoc Working Group on GEOGLAM* has been working to implement the *CEOS Acquisition Strategy for GEOGLAM Phase 1*. The Working Group also coordinate a GEOGLAM-CEOS Co-Community meeting to begin to scope out future support by CEOS for GEOGLAM, including a sketch of the way forward to CEOS Plenary in October 2014. It is expected that the *CEOS Acquisition Strategy for GEOGLAM* will be updated prior to CEOS Plenary, with adjustments to reflecting the changing nature of the satellite fleet CEOS agencies operate, to reflect progress in the implementation of GEOGLAM Phase 1, and also potentially to accommodate an expansion of GEOGLAM requirements.

Proposed Agenda:

14:15– convene.

Five minutes each on:

- Status update on the *CEOS Acquisition Strategy for GEOGLAM Phase 1*, and outcomes from the GEOGLAM-CEOS Co-Community meeting (G Dyke).
- Update on GEOGLAM (M Deshayes).
- Update on the Space Data Management System and GEOGLAM applications (B Killough).

14:30 – 15:00– Open discussion of the strategy and way forward to CEOS Plenary

- CEOS participation in the JECAM Science Meeting, 21st-23rd July 2014, Ottawa.

15:00 – 15:15 PM – Wrap up and adjourn

Core Data Stream Agencies: NASA, USGS, and ESA/Sentinel-1 and -2

Contributing Data Stream Agencies: and JAXA/ALOS-2, CNES (SPOT-5, Pleiades), ESA (Proba-V), ISRO (ResourceSat, RISAT), INPE/CAST (CBERS-4), CSA (RADARSAT-2, RCM), CONAE/ASI (SAOCOM), and DLR (TerraSAR-X, TanDEM-X)

27-17	Coordinate implementation of the CEOS Acquisition Strategy for GEOGLAM Phase 1, provide a progress report on implementation, and recommended a way forward.	Ad hoc Working Group on GEOGLAM	SIT-29
