

SAR Subgroup Report

Manfred Zink (DLR)

CEOS – WGCV Plenary #40

Canberra, Australia

March 14, 2016

Working Group on Calibration and Validation

Workshop 2015

The Committee on Earth Observation Satellites (CEOS) Working Group on Calibration and Validation (WGCV), SAR Subgroup, Synthetic Aperture Radar Workshop 2015 (CEOS SAR 2015) will be held at **ESA-ESTEC in Noordwijk, The Netherlands, from October 27-29, 2015**. The Workshop, hosted by ESA's Sentinel-1 Project team, will provide an open forum for the presentation and discussion of current and future issues related to the calibration and validation of space borne SAR sensors and data products. Please submit contributions to the following topics:

- Calibration of new SAR missions
- Calibration of running SAR missions
- Calibration methodology and techniques
- Calibration targets and sites
- Calibration requirements and definitions
- Propagation effects
- Processing algorithms
- Innovative SAR concepts

Calibration and Validation Workshop 2015

October 27-29, 2015, at ESA-ESTEC
in Noordwijk, The Netherlands

Hosted by

SAR Calibration & Validation Workshop 27-29 Oct. 2015 ESA, ESTEC

- 65 participants
- 46 presentations in 11 sessions
- Focus on Sentinel-1
- Papers on RADARSAT-2, COSMO-SkyMed, NISAR, TerraSAR-X/TanDEM-X, KOMPSAT-5, ALOS-2, RISAT-1, PAZ
- Sessions on calibration techniques and targets
- All presentations are available on: <http://sarcv.ceos.org>
- Nomination of vice chair: Bruce Chapman

Bruce Chapman, PhD

- Senior member of the technical staff at JPL's Radar Science & Engineering section
- Currently leading NISAR cal/Val
- <https://radar.jpl.nasa.gov/people/index.cfm?FuseAction=ShowPerson&pplID=56>

Calibration and Validation for SAR Systems

Welcome to the Synthetic Aperture Radar (SAR) Subgroup of the CEOS Working Group on Calibration and Validation!

Workshop 2016

CEOS SAR 2016 will be held at Tokyo Denki University, Tokyo, Japan from September 7-9, 2016! Further details coming soon.
