

# CEOS WGCV Plenary # 40

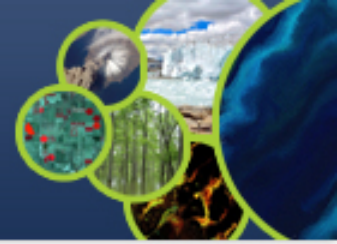

## Atmospheric Remote Sensing

Albrecht von Bargaen  
Chair CEOS WGCV

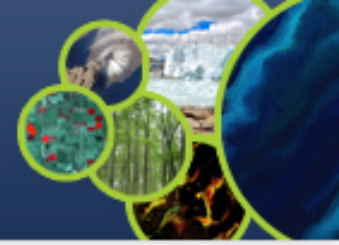

WGCV Plenary # 40  
Canberra  
March 14- 18, 2016

**Working Group on Calibration and Validation**

- Bring the attention of WGCV members to Validation in Atmospheric Remote Sensing
- Keep everybody updated
- Draw the attention of all members to common interests in Cal/Val triggered in that case from the perspective of Atmospheric Remote Sensing but also with the inclusion of current communalities with other Remote Sensing fields
- Establish a regular discussion on this topic
- Initiate also discussion on basic WGCV communalities for future activities

- “Setting the scene”: Fiducial reference measurements
- What’s on Sentinel 5 Precursor validation?
- What’s on ADM/Aeolus?
- Some Airborne and Ground-based systems for validation
- Cal/Val Principles in EU / EC context: QA4ECV, GAIA-CLIM, FIDUCEO
- Validation on Carbon Missions: JAXA’s special report
