The transportation to and from CETT will be covered with a shuttle service.

Please let us know in advance your intention to participate:

- **VISAS:** please check with the Argentine Consulate if you require a visa and contact us.
- **FLIGHTS:** Most international flights arrive at Buenos Aires, and you should take a 1 hour flight from there to Cordoba. But there are also many options to arrive directly at Cordoba airport.
- **HOTELS:** we suggest you stay at Cordoba city, CONAE will provide transportation from the city to the Space Center every day.

Most international flights arrive at Ministro Pistarini International Airport, best known as Ezeiza (EZE), which is 32 km (20 miles) away from downtown Buenos Aires, a journey of about 50 minutes long.

For more information about the airport and flights, please visit the official website:  
<https://www.aa2000.com.ar/ezeiza?qa=EZE>

From there, there are many daily flight connections which connect with Córdoba airport Pajas Blancas (COR) in 1 hour approx.

Please note that there is also a domestic airport in Buenos Aires -Jorge Newbery Airport, best known as Aeroparque (AEP)- with more frequencies to Córdoba. “Tienda León” offers different shuttle services from airport to airport. Be sure to check if you need to change airports in Buenos Aires.

At Córdoba airport:

Once you get to the airport, you have several options to reach the city center

**The local currency is the Argentine peso (ARS). Please notice that locally, the same symbol as for the dollar (\$) is used for the peso. Don't be confused, in shops and restaurants prices expressed using the \$ symbol are in Argentine pesos always, unless stated otherwise. US dollars are usually referred to using the symbol: U\$S.**

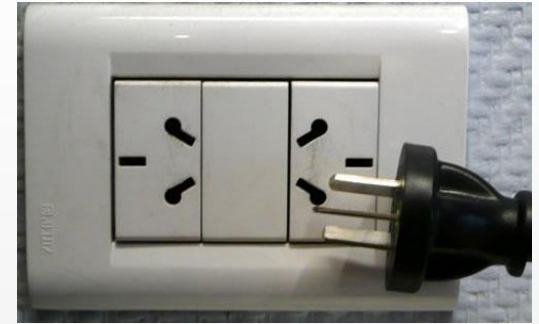

**It is easy to exchange money at “casas de cambio” (bureaux de change/currency exchanges) and at most banks - note that you'll need to provide identification. Local currency can also be withdrawn 24 hours a day from ATMs. Some shops, hotels and restaurants may accept cash payments in US dollars or euros.**

**Most large shops and restaurants accept credit or debit cards. For more information, please visit this link**

## Type I sockets

AC current outlets in Argentina are 220V, 50Hz. The standard outlet has three pins with a layout like in China (type I socket). Most sockets accommodate both the two-pin European (type I socket compatible with type E and F sockets, "two thin round pins") like plugs and the three-pin plugs (see figure).

**Note:** in most of the cases, this small adapter could be enough:

**The end of summer!**

**Argentina and Córdoba are located in the southern hemisphere, so in March we are at the end of summer which is hot and rainy. The rains often occur in the form of thunderstorms. Temperature in Córdoba during this month is usually lower than 27°C (81°F) and higher than 17°C (62°F). You can visit the National Weather Forecast (<https://www.smn.gob.ar> ).**

**We wish you a pleasant stay in  
Córdoba!**
