CEOS SEC-305 Report

9 March 2023

Entity: Joint CEOS-CGMS Working Group on Climate (WGClimate)

Prepared By: Jeffrey L. Privette (NOAA), Wenying Su (NASA)

Updates on issues raised during the <u>last</u> CEOS SEC teleconference

- WGClimate is currently unable to provide representatives to NewSpace, ARD and Oceans Coordinating teams. Will seek/follow those groups' updates on activities at various meetings; revisit these opportunities in future meetings.
- AFOLU representative name likely forthcoming; to be confirmed.

Issues requiring discussion during <u>current</u> CEOS SEC teleconference

- Few agencies active in WG; limited ability to support multiple CEOS and partner (e.g., GEO, GCOS) initiatives in addition to internal activities

Other highlights, activities, actions, projects, collaborations
(<u>Dot points</u>, e.g. outputs, new products, papers, technical reports, media, pipeline and new projects, interactions, project status changes, new opportunities)

- WGClimate-18 take-away points
    - Packed 3-day hybrid meeting
    - Focused on setting 2023 priorities, schedules, planning and staffing
    - New format developed with GCOS for Agencies' Response to GCOS IP
        - Requires merged report on Gap Analysis V3/4.1
        - Input to 2023 revision to WGClimate's Coordinated Action Plan
    - ECV inventory
        - V5 to be released by Plenary (2023); On-hand submissions only
        - Restructuring activity continuing; to be used for V6 (2024)
    - Will advertise Use Case collection via social media, SEO website, etc.
    - GHG Task Team Meeting (Feb. 2nd) Summary
        - Submitted Carbon Work Plan to CEO
        - Compiling lessons-learned from Global Stocktake 1 support
