

EOTEC DevNet Regional Meetings

June 14, 2021

Earth Observation Training, Education,
and Capacity Development Network

EOTEC DevNet is a network of networks created to improve coordination and enhancement of Earth Observation asset and training providers in support of key global sustainable development outcomes.

Who should attend the Regional Meetings?

- Anyone engaged in building knowledge and skills to use Earth observations for better flood-related decisions, actions, and research
- Anyone with technical experience related to flood forecasting/early warning, flood response, and flood risk

Regional Meeting Objectives:

1. Learn about EOTEC DevNet's [approach](#)
2. Provide contributions to and feedback on EOTEC DevNet's [Floods Tracker](#)
 - Flood Data and Tools Matrix
 - Flood Capacity Development Resources Matrix
 - CapDev Resource Gaps and Needs Assessments
3. Learn [what's next](#) for EOTEC DevNet

When to Join:
